1930 the begin of the depression year ~ and i was only 20 year ~ old and had a good home but there was nothing no work to be had but at that age you don't want work and there was hardly enough to eat at home telling my self i could help them at home if i left home with a boy or man my own age that told himself the same thing

His name was albert Bolton so Damon Hazelip and Albert Bolton was on there way but we did not know where about three month later we were in Brownville Texas and still we had found nothing a hand out here and one there the depression was getting worse even the fail ~ did not want you there were thousand by the thousand with nothing to do eat but there was the hand of the master and by now he had moved us all the way across Texas to Amarillo Texas and put us in a church that had set up a place to feed what they could it was a must that we hear what the Lord had to say about the thousand ~ of us that was running wild when we should be with our own and to gather our lamb ~ together that he could feed us there as well as he could in Amarillo Texas when he came a part that your great grand mother had taught me as a child and as a child she was always ~ after us kids to be in Sunday school then the word ~ came back give us this day our daily bread then i knew that we did ^{not} have to beg for the bread when the Lord would give to me

It was now the fall of the year of 1930 and i wanted to get home the earthly home that he had for me here and i wanted to get there before winter so across Texas we started back toward ~ Kentucky we made it sometime in November by this time albert Bolton had he together six or eight month and were pretty close so before going to greet ~~great~~ grand mother ~ we went to his home at 19 and Portland ave Louisville Ky it was there that i meet your grand mother at that moment i thank God and your great grand mother for force to me to come back home i did go to my mother home that night and i did feel like the best son on my return
